

Upgrading Old Products —————

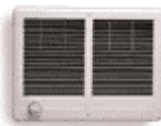

Heater Cross Reference Chart Recalled Product Information

**ZA, RA, Z,
ZC**

FX, RX

LX, RLX

TK, RK

FW, RW

On February 17, 2000, Cadet and the Consumer Product Safety Commission jointly announced a two-year safety recall program. That two-year program ended on February 17, 2002. However, Cadet has taken the legal steps necessary to sponsor a replacement program. If you have recalled heaters installed in your property or residence, Cadet urges you to replace them.

Consumers who replaced their heatboxes during the 24-month program do not need to take any further action. Models C, CT, L, RM, UC, X and ZM are NOT recalled.

The models recalled were: FW, FX, LX, TK, ZA, Z, RA, RK, RLX, RW, RX, and ZC. These models should be replaced, regardless of manufacture or purchase date. For more information on our replacement program, call 800.567.2613 and select option 4 for an operator during regular business hours Monday through Friday. Replacement units can also be purchased through our normal channels of distribution. For information on where to purchase Cadet products, see below.

[Click here](#) for instructions on identifying your heater.

Where to Buy

Cadet products are available through participating retail channels such as The Home Depot, Ace, True Value, Do-It-Best, Electric Works, Penguin Plumbing and A-Boy stores. Any store that carries Cadet products has the ability to special order Cadet products they do not regularly stock.

Mail order and will call options include:

Century (800) 234-3991

The Home Depot Supply (800) 431-3000

Wilmar (800) 345-3000

For local electrical contractors that carry Cadet products, please see your yellow pages.

How To Identify The Model Of Heater
IMPORTANT! ALL HEATERS MUST BE INDIVIDUALLY IDENTIFIED!
Although heaters may look the same, wattage and voltage may differ.

WARNING! Before removing grill, turn the electrical power off at the electrical panel board (circuit breaker or fuse box) and lock or tag the panel board door to prevent someone from accidentally turning the power on while you are working on the heater. Failure to do so could result in serious electrical shock, burns, or possible death.

1. Turn the heater thermostat all the way up and wait approximately 30 seconds. If the heater turns on, you have turned off the wrong circuit breaker at the electrical panel board.
2. If the heater turns on, you have turned off the wrong circuit breaker at the breaker panel or fuse box.
3. If heater does not turn on, proceed to step #4.
4. Remove screws and take off grill.
5. Locate sticker on heatbox (usually clear sticker with gold lettering). This will have the model of that particular heater.
6. If the letters FW, FX, LX, TK, ZA, Z, RA, RK, RLX, RW, RX, or ZC appear within the model number (regardless of manufacture or purchase date), your heater was part of the recall program. (Note: X, L, ZM, and RM Model heaters are NOT affected.)

If you have two:

FX122, RX122

FX152, RX152

FX202, RX202

FX242, RX242

FX208, RX208

You need:

CT242

CT302, RLX302

CT402, RLX402

CT482, RLX482

CT408, RLX408

7.

If you are unable to identify the model of your heater, [click here](#) for more detailed instructions

ANY STORE THAT CARRIES CADET PRODUCTS HAS THE ABILITY TO SPECIAL ORDER ANYTHING IN THE CADET CATALOG.

No costly construction is necessary to replace the recalled model heaters. The same wall can and grill from the recalled heater can be used with the replacement heatbox (heater assembly).

The replacement heatbox models are listed below in **BOLD** typeface. If you control your heater with a thermostat mounted directly on the unit, you will need to add a "T" suffix to the model number. If you control your heater with a thermostat mounted on the wall, you will need a model number without a "T" suffix. For example: FX152T for a model with a unit thermostat, or FX152 for a model with a wall thermostat.

FX STYLE (COMPAK)

Recalled Model	Replacement Model
FX052	C052
FX051, RX051	C051
FX071, RX071	C051
